

+BAYO / +CRYPTI USER AGREEMENT

Last Updated: May 28, 2026

Operator: Bay Oracle

Platform: BaySpace

Contact: bayoracle@protonmail.com

***Note:** This document is draft copy only and does not constitute legal advice. It should be reviewed by qualified counsel before publication, signature, member acceptance, or reliance.*

This +Bayo / +Crypti User Agreement (“Agreement”) governs access to and use of the +Crypti areas, tools, feeds, posting systems, ticker systems, profile systems, scoring systems, saved and favorite systems, ticket systems, Lazy Assistant workflows, post builders, and related BaySpace features provided by Bay Oracle and BaySpace (“BaySpace,” “we,” “us,” or “our”).

By accessing, joining, posting in, voting in, reading, saving, ticketing, submitting tickers to, using, or continuing to use +Crypti, you agree to this Agreement. If you do not agree, do not use +Crypti.

1. ELIGIBILITY AND ACCESS

+Crypti is a restricted member area. Access may require a BaySpace member number, approved role, gate access, PIN, account session, acceptance of this Agreement, and any additional review or access condition BaySpace may require.

BaySpace may grant, deny, suspend, limit, revoke, or modify +Crypti access at any time to protect the platform, members, data, legal compliance, moderation systems, or platform integrity.

+Crypti may include public-facing surfaces, member-only surfaces, profile surfaces, post surfaces, ticker surfaces, scoring surfaces, and administrative or moderation surfaces.

2. NO FINANCIAL, INVESTMENT, LEGAL, OR PROFESSIONAL ADVICE

+Crypti is an information, commentary, research, entertainment, and community-signal environment.

Nothing in +Crypti constitutes financial advice, investment advice, trading advice, legal advice, tax advice, accounting advice, regulatory advice, professional advice, or a recommendation to buy, sell, hold, short, stake, mint, bridge, lend, borrow, promote, avoid, or transact in any asset.

Posts, tickers, votes, favorites, tickets, scores, rankings, comments, sources, signals, categories, profile activity, Lazy Assistant output, and member-generated content are not investment ratings, legal conclusions, certifications, guarantees, or verified research.

You are solely responsible for your own decisions.

3. MARKET AND CRYPTO RISK

+Crypti may include content about cryptocurrencies, tokens, stocks, exchange-traded funds, companies, protocols, chains, exchanges, markets, memes, rumors, launches, wallets, narratives, and related topics.

These topics may involve high risk, volatility, scams, misinformation, manipulation, loss of funds, regulatory uncertainty, and incomplete or inaccurate information.

You may lose money or opportunity if you rely on information found in +Crypti. BaySpace does not guarantee accuracy, completeness, safety, timeliness, profitability, or usefulness of any +Crypti content.

4. USER CONTENT

Members may submit posts, headlines, receipts, claims, sources, links, ticker symbols, ticker descriptions, categories, S Buzz whispers, R News posts, Q Degen posts, comments, votes, favorites, tickets, profile information, and other content (“User Content”).

You are responsible for your User Content. By submitting User Content, you represent that you have the right to submit it and that it does not violate law, platform rules, third-party rights, privacy rights, confidentiality duties, or this Agreement.

By submitting User Content, you grant BaySpace a worldwide, non-exclusive, royalty-free license to host, store, display, reproduce, format, publish, moderate, index, archive, analyze, and use that content for operating, securing, improving, and promoting BaySpace and +Crypti.

5. +CRYPTI POST TYPES

+Crypti may include the following post types and source modes:

A. R News

Receipt-oriented crypto news or research posts, designated for sourced, higher-certainty submissions.

B. Q Degen

Degen-facing posts, emerging signals, speculation, narratives, or lower-certainty discussion.

C. S Buzz

Social buzz, whispers, chatter, rumors, secrets, sentiment, and other less formal signal content.

BaySpace may rename, modify, merge, split, hide, delete, or reclassify post types or categories at any time.

6. POINT SYSTEMS

+Crypti uses two separate scoring systems: Post Score and Profile Score. These systems operate independently of each other.

A. Post Score

Post Score measures activity on an individual post. The following events may affect Post Score:

- Fully opened post visit: +0.1 point per qualifying full post open.
- Favorite diamond received: +10 points.
- Favorite diamond removed: -10 points.
- Ticket received: +50 points.
- Ticket removed: -50 points.

Post Score is calculated as follows:

$$\begin{aligned} & (\text{Post Visits} \times 0.1) \\ & + (\text{Favorites Received} \times 10) \\ & - (\text{Favorites Removed} \times 10) \\ & + (\text{Tickets Received} \times 50) \\ & - (\text{Tickets Removed} \times 50) \\ & = \text{Post Total Points} \end{aligned}$$

Post Score may display in tenths where applicable (e.g., 55.5). Ticker views do not count as post visits.

BaySpace may adjust, recalculate, correct, hide, or reset Post Score where needed for abuse prevention, technical correction, moderation, data integrity, platform changes, or feature evolution.

B. Profile Score

Profile Score measures a member's cumulative platform activity. The following events may affect Profile Score:

- R News post submitted: +10 profile points.
- Q Degen post submitted: +1 profile point.
- S Buzz post submitted: +5 profile points.
- Daily Smoke winner designation: +500 profile points if the member holds the highest-earning qualifying post at the time of daily reset or award.
- Favorite diamond received on a qualifying post: +1 profile point; -1 profile point if that favorite is subsequently removed.
- Ticket received on a qualifying post: +10 profile points; -10 profile points if that ticket is subsequently removed.
- Total qualifying post visits: $(\text{Total Qualifying Post Visits} \times 0.1)$ added to Profile Score.
- Ticker contribution: +10 profile points per qualifying ticker contributed.

Qualifying post visits include R News, Q Degen, and S Buzz post opens. Ticker views do not count as post visits.

BaySpace may adjust, recalculate, correct, hide, or reset Profile Score where needed for abuse prevention, technical correction, moderation, data integrity, platform changes, or feature evolution.

C. Score Limitations

Scores are platform features only. Scores have no cash value, token value, legal value, equity value, financial claim, redemption right, ownership right, governance right, prize right, or guaranteed status.

7. FAVORITES, DIAMONDS, TICKETS, AND UNDO ACTIONS

Members may favorite posts using the favorite diamond feature. Members may ticket posts using the ticket feature.

Removing a favorite or ticket may reduce the relevant Post Score and Profile Score as described in Section 6.

BaySpace may impose cooldowns, limits, access rules, eligibility rules, or abuse controls on voting, tickets, favorites, or other interactions.

Favorites and tickets are platform sentiment and organization tools only. They do not create financial, legal, or professional ratings of any kind.

8. POST VISITS

A qualifying full post open may count as a post visit. Post visit counts may be shown near the post link icon and may affect Post Score and Profile Score as described in Section 6.

BaySpace may use technical controls to prevent duplicate or accidental visit counts, but visit counts may still be approximate. BaySpace may correct or adjust visit data for technical issues, abuse, bots, duplicate events, or platform integrity.

9. TICKERS

+Crypti may allow members to submit, follow, claim interest in, or vote on tickers. A ticker may refer to a coin, token, stock, exchange-traded fund, index, protocol, company, meme, asset, chain, market, or other market-related symbol.

Ticker contribution may affect Profile Score as described in Section 6. Ticker views do not count as post visits.

Ticker listings are not endorsements, recommendations, investment advice, verified asset listings, trading signals, or guarantees. BaySpace may remove, merge, rename, moderate, hide, or reject tickers at any time.

10. FOLLOWING AND “I HAVE THIS TICKER”

Members may follow tickers or mark a ticker as “I have this ticker.” These features may appear on profile or member-facing areas and are profile, organization, and display features only.

“I have this ticker” does not prove ownership, custody, wallet balance, trading activity, financial position, asset claim, or investment status. BaySpace does not verify member holdings.

11. LAZY ASSISTANT

+Crypti may include links or workflows involving a Lazy Assistant or other AI-assisted drafting tools. Lazy Assistant may help members draft posts, ticker submissions, categories, headlines, receipts, source formatting, or upload-ready text.

Lazy Assistant output may be incomplete, inaccurate, speculative, outdated, biased, unsafe, or unsuitable for posting. You are responsible for reviewing, editing, verifying, and approving

anything generated by Lazy Assistant before posting or submitting it. BaySpace is not responsible for decisions made from Lazy Assistant output.

12. CHECKMARK MONEY BAG POST BUILDER

+Crypti may include a checkmark money bag builder or similar upload workflow. This tool may parse, format, or help submit drafts, ticker entries, posts, sources, categories, receipts, or related content.

The builder is a convenience feature only. You are responsible for checking the final review screen before submission. BaySpace does not guarantee that the builder will correctly parse or classify every draft.

13. ANONYMOUS POSTING

+Crypti may offer an “anon” posting option. Anon is not full anonymity.

Anon may reduce automatic profile listing or public association in certain +Crypti profile surfaces, but BaySpace may still maintain member records, post ownership records, moderation records, logs, and technical records. Other members may still be able to access profile paths, context, or attribution surfaces connected to anon posts depending on current platform design.

Anon posts may still be visible to +Crypti users or platform operators. Members may be able to toggle anon on or off for certain posts through the My Posts area.

Do not use anon if you require complete anonymity, confidentiality, legal privilege, whistleblower protection, or identity protection.

14. PROFILES, IDENTIFICATION, AND STATISTICS

+Crypti profiles may display member information including explorer number, title, name, reference name, posts, tickers, favorites received, tickets received, visits, score, and other platform statistics.

Profile statistics may include:

- Overall Total Score;
- Profile Page Visits;
- Total Visits Across All Posts;
- Total Favorite Tokens Received;
- Total Tickets Received;
- Total Number of Posts;
- Total Tickers Contributed.

Profile data may be approximate, delayed, recalculated, corrected, hidden, or reset at any time.

15. DAILY SMOKE

+Crypti may include Daily Smoke or other ranking areas. Daily Smoke may rank qualifying posts by score, activity, or other criteria.

BaySpace may reset, clear, archive, recalculate, or modify Daily Smoke at any time. If BaySpace awards Daily Smoke winner points, those points may be reflected in Profile Score according to the rules set forth in Section 6.

Daily Smoke has no cash value, investment meaning, legal meaning, or guaranteed benefit.

16. MODERATION

BaySpace may moderate, hide, remove, edit for formatting, flag, restrict, reclassify, or archive content or accounts. Moderation may occur for abuse, spam, scams, harassment, illegal content, impersonation, misleading claims, privacy violations, market manipulation concerns, security concerns, platform disruption, or violation of this Agreement.

BaySpace may act with or without prior notice.

17. PROHIBITED USE

You may not use +Crypti to:

- post illegal content;
- harass, threaten, abuse, or target other members or persons;
- impersonate any person or entity;
- post private, confidential, or identifying information about another person without authorization;
- promote scams, fraud, malware, phishing, or deceptive schemes;
- manipulate scores, visits, votes, favorites, tickets, tickers, or rankings through artificial or deceptive means;
- use bots, scripts, fake accounts, automated systems, or coordinated abuse;
- misrepresent financial positions, holdings, credentials, or affiliations;
- present content as financial advice or as guaranteed outcomes;
- violate intellectual property, privacy, publicity, or contractual rights;
- interfere with BaySpace security or platform operation.

18. DATA AND RECORDS

BaySpace may collect and store information necessary to operate +Crypti, including member number, profile details, posts, votes, favorites, tickets, tickers, visit counts, score data, role data, session data, moderation data, links, settings, and technical records.

BaySpace may retain records as needed for platform operation, moderation, legal compliance, security, abuse prevention, dispute handling, backup, and feature integrity.

19. THIRD-PARTY LINKS AND SOURCES

+Crypti may include links to third-party websites, social media, exchanges, wallets, block explorers, articles, documents, protocols, tools, or other external sources. BaySpace does not control third-party sites and is not responsible for third-party content, accuracy, privacy practices, security, availability, losses, or harm.

20. AVAILABILITY AND CHANGES

+Crypti may change at any time. BaySpace may add, remove, pause, redesign, rename, reset, or discontinue any +Crypti feature, including posts, scores, tickers, profiles, Lazy Assistant links, builders, favorites, tickets, Daily Smoke, anon, or statistics.

BaySpace does not guarantee continuous availability, permanent access, permanent archive, permanent score history, or permanent feature behavior.

21. NO OWNERSHIP OR FINANCIAL RIGHTS

No +Crypti membership, score, point, ticket, favorite, ticker, ranking, post, badge, profile statistic, or Daily Smoke result creates any of the following:

- equity or ownership interest;
- debt obligation;
- token rights or governance rights;
- revenue share, profit rights, dividend rights, or royalty rights;
- cash redemption rights or financial claim;
- legal entitlement;
- employment relationship, partnership, or fiduciary duty.

22. DISCLAIMERS

+Crypti is provided on an “as is” and “as available” basis. To the fullest extent permitted by law, BaySpace disclaims all warranties, express or implied, including warranties of accuracy, completeness, reliability, availability, security, profitability, merchantability, fitness for a particular purpose, non-infringement, and uninterrupted operation.

23. LIMITATION OF LIABILITY

To the fullest extent permitted by law, BaySpace and its operators, owners, administrators, moderators, contractors, service providers, affiliates, successors, and assigns are not liable for indirect, incidental, consequential, special, exemplary, punitive, lost-profit, lost-data, lost-opportunity, market-loss, trading-loss, wallet-loss, asset-loss, or reputational damages arising from +Crypti.

BaySpace is not liable for decisions made based on posts, tickers, scores, Lazy Assistant output, favorites, tickets, profiles, rankings, or third-party sources.

24. INDEMNIFICATION

You agree to defend, indemnify, and hold harmless BaySpace and its operators, owners, administrators, moderators, contractors, service providers, affiliates, successors, and assigns from and against any claims, losses, damages, liabilities, costs, and expenses, including reasonable attorneys' fees, arising out of or related to:

- your use of +Crypti;
- your User Content;
- your violation of this Agreement;
- your violation of applicable law;
- your violation of any third-party right.

25. TERMINATION

BaySpace may suspend, restrict, or terminate access to +Crypti at any time. You may stop using +Crypti at any time.

Certain records may remain after account deletion or access termination where needed for moderation, legal compliance, security, backups, platform integrity, or dispute handling.

26. AGREEMENT UPDATES

BaySpace may update this Agreement at any time. Continued use of +Crypti after changes become effective constitutes acceptance of the updated Agreement.

27. CONTACT

Questions about +Crypti or this Agreement may be sent to:

bayoracle@protonmail.com

28. ACKNOWLEDGMENT

By using +Crypti, you acknowledge and agree that:

- you have read and understood this Agreement;
- +Crypti does not provide financial advice of any kind;
- scores and points have no cash value, token value, or ownership value;
- anon is a display feature and does not constitute full anonymity;
- Lazy Assistant output must be independently reviewed and verified by you before submission;
- you are solely responsible for your own posts, actions, decisions, and assumption of risk.
