

BAYO+ AND CRYPTI MEMBER USER AGREEMENT

Effective Date: May 25, 2026

Version: Draft 0.1

Operator: Bay Oracle

Platform: BaySpace

Covered Sections: Bayo+ and Crypti

Privacy Contact: bayoracle@protonmail.com

Draft notice: This document is a working draft prepared for legal review. It is intended to follow the format of the BaySpace Privacy Notice and User Agreement. It should be reviewed by qualified counsel before publication, signature, member acceptance, or reliance.

1. INTRODUCTION

This Bayo+ and Crypti Member User Agreement ("Agreement") governs access to and use of Bayo+ and Crypti, exclusive member sections, tools, rooms, signals, archives, voting systems, posting workflows, ticker libraries, member-only feeds, ranking systems, and related features made available through BaySpace by Bay Oracle ("BaySpace," "Bay Oracle," "we," "us," or "our").

Bayo+ and Crypti are member-only platform areas. They may allow eligible members to access restricted content, view or submit market-related commentary, vote on tickers or signals, post receipts or notes, participate in member rankings, preserve member standing records, access limited platform privileges, and use other gated features BaySpace may provide.

This Agreement supplements, and does not replace, the BaySpace Privacy Notice and User Agreement. If this Agreement conflicts with the main BaySpace Privacy Notice and User Agreement for Bayo+ or Crypti features, this Agreement controls only for the Bayo+ or Crypti feature at issue.

By joining, accessing, posting in, voting in, reading, using, or maintaining membership in Bayo+ or Crypti, you acknowledge that you have read, understood, and agree to this Agreement.

If you do not agree to this Agreement, do not use Bayo+ or Crypti.

2. ELIGIBILITY

Bayo+ and Crypti are intended only for users age 18 or older.

You may not use Bayo+ or Crypti if you are under 18 years old.

By accessing Bayo+ or Crypti, you represent that you are at least 18 years old, have the legal capacity to enter into this Agreement, and are not barred from using these sections under applicable law, platform rules, sanctions restrictions, prior suspension, or member standing restrictions.

BaySpace may require additional eligibility checks, invitation credentials, member numbers, creator codes, role approvals, gate keys, prescreen passwords, manual review, or other access conditions before granting or continuing Bayo+ or Crypti membership.

3. ACCOUNT CREATION AND MEMBER IDENTITY

Bayo+ and Crypti access may be tied to a BaySpace account, member number, display name, reference name, public profile, role, title, access gate, or other platform-specific credential.

When you create, maintain, or use Bayo+ or Crypti access, BaySpace may collect and store:

- username, reference name, account name, or display name;
- member number;
- account type, role, title, and posting permissions;
- Bayo+ or Crypti access status;
- access acceptance timestamps and agreement version;
- invitation, creator-code, or gate-key validation status;
- member-visible profile information voluntarily provided by you;
- votes, rankings, ticker submissions, notes, receipts, categories, source links, and post metadata;
- moderation status, restriction status, standing status, enforcement records, and dispute records;
- session, authentication, and security information needed to operate the member areas.

BaySpace may preserve member numbers, member standing records, and access histories to operate the platform, enforce eligibility, maintain audit trails, resolve disputes, and protect member-only sections.

You are responsible for maintaining the confidentiality of your login credentials and for all activity occurring through your account.

4. ACCOUNT TYPES, ROLES, AND EXCLUSIVE ACCESS

Bayo+ and Crypti may include different account types, roles, titles, permissions, or access levels. These may include, without limitation:

- Bayo+ member;
- Crypti member;
- Bayo+ author;
- Crypti author;
- ticker contributor;
- signal contributor;
- curator;
- moderator;
- administrator;
- internal platform role;
- other limited, invited, or approved member status.

Account type may affect whether you can access restricted rooms, submit posts, vote on tickers, add ticker entries, view member-only feeds, receive platform standing recognition, use special display options, or participate in member-only rankings.

BaySpace may modify, restrict, suspend, revoke, or change Bayo+ or Crypti account types, permissions, roles, access gates, or privileges at any time.

5. EXCLUSIVE LEGAL STANDING COVERAGES

For purposes of this Agreement, "exclusive legal standing coverages" means the limited platform-recognized rights, status records, access protections, member privileges, and dispute-position records made available only to eligible Bayo+ or Crypti members under this Agreement.

These coverages are contractual platform coverages. They are not insurance, legal representation, legal advice, a defense fund, a guaranty of outcome, a fiduciary relationship, a securities entitlement, a financial product, or a promise that any court, regulator, exchange, broker, bank, protocol, chain, issuer, or third party will recognize a member's standing.

Subject to this Agreement, eligible Bayo+ and Crypti members may receive the following exclusive platform standing coverages:

- access standing coverage, meaning BaySpace may recognize that a member had authorized Bayo+ or Crypti access during a recorded period;
- contribution standing coverage, meaning BaySpace may preserve records showing that a member submitted posts, ticker entries, votes, receipts, notes, sources, or other platform contributions;
- attribution standing coverage, meaning BaySpace may preserve available metadata tying a contribution to a member account, subject to privacy settings, anonymous features, moderation, and platform limits;
- moderation standing coverage, meaning BaySpace may maintain records of moderation actions, warnings, restrictions, appeals, and restoration decisions;
- dispute standing coverage, meaning BaySpace may review account, access, contribution, and moderation records when a member raises a platform dispute;
- archive standing coverage, meaning BaySpace may retain platform records needed to prove historical access, acceptance, authorship, display state, or enforcement state;
- voting standing coverage, meaning BaySpace may preserve records of member votes, ticker signal participation, and ranking actions where needed for platform integrity;
- member status coverage, meaning BaySpace may recognize good standing, restricted standing, suspended standing, revoked standing, or restored standing within the platform.

These coverages apply only within BaySpace and only to the extent BaySpace has usable records, lawful authority, and operational ability to maintain or produce them. BaySpace does not promise that all records will be complete, permanent, exportable, admissible, or available in every dispute.

6. AUTHENTICATION, PINS, SESSIONS, AND ACCOUNT SECURITY

BaySpace may collect information necessary to authenticate Bayo+ and Crypti members, maintain member sessions, enforce access gates, and protect restricted areas.

This may include member number, login identifier, PIN authentication data in protected hashed form, session tokens in protected hashed form, signup or upgrade draft data, session creation time, session expiration time, revocation status, access-code validation state, and device or request information.

BaySpace may use cookies, sessions, browser storage, and server-side authentication systems to keep members logged in, authenticate requests, prevent unauthorized access, preserve drafts, enforce member gates, and maintain platform security.

7. MEMBER CONTENT

Bayo+ and Crypti may allow members to submit posts, ticker entries, market notes, commentary, receipts, source links, screenshots, category selections, vote signals, rankings, favorites, saved items, and other material ("Member Content").

You are responsible for your Member Content. You represent that you have all rights necessary to submit it, that it does not violate applicable law, and that it does not infringe or misappropriate another person's rights.

BaySpace may remove, restrict, refuse, preserve, label, downrank, hide, archive, or moderate Member Content at any time.

8. LICENSE TO MEMBER CONTENT

By submitting Member Content to Bayo+ or Crypti, you grant BaySpace a worldwide, non-exclusive, royalty-free, sublicensable, transferable license to host, store, reproduce, display, publish, distribute, modify for formatting, moderate, index, archive, analyze, and otherwise use the Member Content for operating, improving, securing, and promoting BaySpace, Bayo+, Crypti, and related features.

This license continues for as long as needed to operate the platform, preserve records, maintain legal and security integrity, resolve disputes, enforce agreements, protect members, and comply with law.

9. PUBLIC, MEMBER-VISIBLE, AND PLATFORM-VISIBLE INFORMATION

Bayo+ and Crypti may contain information visible to the public, visible only to members, visible only to certain roles, or visible only to BaySpace operators, moderators, administrators, or service providers.

Information that appears member-only should not be treated as confidential unless BaySpace expressly labels it confidential and agrees to a specific confidentiality obligation in writing.

Members may not scrape, export, republish, sell, leak, or commercially exploit member-only information without written permission from BaySpace.

10. CRYPTI FEATURES

Crypti may include ticker libraries, symbols, asset labels, chain or market fields, categories, notes, voting, score displays, signal labels, daily or all-time counts, member posts, favorites, ticket votes, rankings, and source links.

Crypti content may concern coins, tokens, stocks, exchange-traded funds, indexes, memes, markets, chains, protocols, companies, narratives, rumors, launches, or other financial or market-adjacent subjects.

Crypti is an informational and community-commentary feature. It is not a broker, dealer, investment adviser, exchange, custodian, wallet, bank, money transmitter, transfer agent, research publisher, ratings agency, accounting firm, law firm, or tax adviser.

11. NO FINANCIAL, INVESTMENT, LEGAL, TAX, OR PROFESSIONAL ADVICE

Bayo+ and Crypti do not provide financial, investment, legal, tax, accounting, regulatory, or professional advice.

No post, vote, signal, score, ticker listing, category, rank, source link, member comment, moderation action, platform label, or operator communication should be treated as a recommendation to buy, sell, hold, short, stake, bridge, mint, lend, borrow, swap, issue, promote, or avoid any asset.

You are solely responsible for your financial decisions, legal decisions, tax decisions, and use of any third-party service.

12. MARKET AND CRYPTO RISK

Digital assets, tokens, coins, stocks, exchange-traded products, derivatives, protocols, chains, and market narratives may be volatile, illiquid, manipulated, hacked, frozen, delisted, rugged, regulated, reclassified, taxed, or lost.

You may lose some or all of any money, asset, account, wallet access, opportunity, or position connected to information you read or share through Bayo+ or Crypti.

BaySpace is not responsible for market losses, trading losses, tax consequences, gas fees, bridge failures, wallet compromise, exchange failures, protocol failures, smart contract bugs, issuer misconduct, regulatory action, misinformation, delayed information, or member reliance on platform content.

13. NO CUSTODY, TOKENS, OR BROKERAGE RELATIONSHIP

Unless BaySpace expressly states otherwise in a separate written agreement, Bayo+ and Crypti do not custody funds or assets, issue tokens, manage wallets, execute trades, match orders, clear transactions, transmit money, hold private keys, provide brokerage services, or create investment accounts.

No Bayo+ or Crypti membership, vote, rank, ticker entry, post, badge, or standing record creates equity, debt, token rights, governance rights, profit rights, dividend rights, royalty rights, revenue share rights, liquidation rights, voting rights in BaySpace, or any ownership interest in Bay Oracle.

14. MEMBER RESPONSIBILITIES AND PROHIBITED CONDUCT

You agree not to use Bayo+ or Crypti to:

- violate any law, regulation, court order, sanctions rule, exchange rule, or third-party right;
- promote fraud, market manipulation, pump-and-dump activity, wash trading, insider trading, front-running, coordinated deception, phishing, malware, wallet draining, or rug-pull activity;
- misrepresent your identity, affiliation, credentials, ownership, position, sponsorship, or compensation;
- post false, misleading, deceptive, defamatory, harassing, threatening, obscene, hateful, or unlawful material;
- disclose another person's private information without authorization;
- leak member-only content outside its intended access level;
- evade bans, restrictions, rate limits, access gates, or moderation decisions;
- interfere with platform security, availability, ranking integrity, vote integrity, account integrity, or member privacy.

15. SOURCES, RECEIPTS, AND ACCURACY

Members may be required or encouraged to provide sources, receipts, links, evidence, or context for Crypti or Bayo+ submissions.

BaySpace does not verify all sources, posts, votes, tickers, claims, scores, or member commentary. Platform availability of content does not mean BaySpace endorses, validates, guarantees, or adopts that content.

You should independently verify information before relying on it.

16. VOTING, SCORES, RANKINGS, AND SIGNALS

Crypti votes, scores, rankings, ticket votes, favorites, signal labels, and categories are platform features for organizing community sentiment and member activity.

They may be incomplete, biased, delayed, manipulated, erroneous, experimental, or changed at any time.

BaySpace may adjust, hide, reset, recalculate, delete, weight, or refuse votes, scores, rankings, and signals to protect the platform, correct errors, reduce abuse, enforce rules, or improve feature quality.

No vote, score, ranking, or signal creates an investment rating, legal conclusion, professional opinion, factual certification, or guarantee.

17. ANONYMOUS, INCOGNITO, GHOST-AUTHOR, AND PEN-NAME FEATURES

Bayo+ and Crypti may allow anonymous, incognito, ghost-author, pen-name, limited-profile, or role-based display options.

These features affect display within the platform. They do not guarantee legal anonymity, technical anonymity, regulatory anonymity, court anonymity, or anonymity from BaySpace operators, service providers, moderators,

administrators, security systems, or lawful process.

BaySpace may preserve internal records connecting anonymous or pen-name activity to an account where needed for security, moderation, legal compliance, dispute resolution, standing coverage, or platform integrity.

18. MEMBER STANDING RECORDS

BaySpace may maintain standing records for Bayo+ and Crypti members, including good standing, limited standing, restricted standing, suspended standing, revoked standing, archived standing, appealed standing, or restored standing.

Standing records may reflect agreement acceptance, account status, access history, contribution history, moderation actions, dispute outcomes, payment or access status if applicable, and other platform integrity information.

Standing records are internal platform records. They do not guarantee reputation, creditworthiness, legal fitness, professional qualification, financial suitability, regulatory compliance, or third-party acceptance.

19. MODERATION, REPORTS, APPEALS, AND ENFORCEMENT

BaySpace may moderate Bayo+ and Crypti to protect members, prevent abuse, enforce law, preserve platform integrity, protect restricted content, and maintain reliable records.

BaySpace may warn, label, limit, suspend, restrict, revoke, remove, preserve, investigate, report, or permanently ban accounts or content.

BaySpace may offer an appeal or review process, but no appeal is guaranteed unless expressly provided by BaySpace in writing.

20. CONFIDENTIALITY OF MEMBER-ONLY AREAS

Some Bayo+ or Crypti areas may be restricted to members or specific roles.

You agree not to copy, screenshot, record, redistribute, sell, license, train models on, publish, leak, or otherwise disclose restricted member-only content outside its intended access group unless BaySpace gives written permission or applicable law requires disclosure.

BaySpace may revoke access or pursue remedies for unauthorized disclosure of member-only content.

21. DATA RETENTION

BaySpace may retain Bayo+ and Crypti information for as long as necessary to operate the platform, maintain member records, preserve exclusive legal standing coverages, enforce agreements, support moderation, prevent abuse, comply with law, resolve disputes, and maintain backups.

Deleted content, revoked access, account wipe requests, or account deletion requests may not immediately remove all records from backups, logs, standing records, moderation records, legal records, or security archives.

22. POST DELETION, ACCOUNT WIPE, AND ACCESS REVOCATION

BaySpace may allow members to delete posts, request account wipe, leave Bayo+, leave Crypti, or request access revocation.

BaySpace may preserve records needed for legal compliance, dispute resolution, security, moderation, standing coverage, or operational integrity.

Loss of access does not automatically erase prior agreement acceptance, contribution records, votes, moderation records, payment records if applicable, or standing records.

23. PRIVACY AND SERVICE PROVIDERS

Bayo+ and Crypti are subject to the privacy practices described in the BaySpace Privacy Notice and User Agreement.

BaySpace may use hosting providers, databases, analytics, security tools, email or communication providers, storage providers, and other service providers to operate Bayo+ and Crypti.

BaySpace may disclose information where needed to operate the platform, enforce this Agreement, protect users, comply with law, respond to lawful process, investigate abuse, prevent fraud, or complete a business transfer.

24. THIRD-PARTY LINKS, TOOLS, WALLETS, EXCHANGES, AND SERVICES

Bayo+ and Crypti may link to or reference third-party websites, wallets, chains, protocols, exchanges, brokers, social media services, data sources, documents, tools, or content.

BaySpace does not control and is not responsible for third-party services. Your use of third-party services is governed by their own terms, privacy policies, risks, fees, and legal obligations.

You should not connect wallets, disclose keys, send funds, execute trades, or rely on third-party services without independent review.

25. PLATFORM CHANGES, SUSPENSION, AND AVAILABILITY

BaySpace may change, pause, limit, discontinue, rebrand, rename, redesign, merge, split, archive, or remove Bayo+, Crypti, or any related feature at any time.

Bayo+ and Crypti may be unavailable, delayed, incomplete, inaccurate, experimental, or interrupted.

BaySpace does not guarantee uninterrupted access, permanent access, permanent archive availability, permanent scores, permanent rankings, permanent member privileges, or permanent legal standing coverage availability.

26. DISCLAIMERS

Bayo+ and Crypti are provided on an "as is" and "as available" basis.

To the fullest extent permitted by law, BaySpace disclaims all warranties, express or implied, including warranties of merchantability, fitness for a particular purpose, title, non-infringement, accuracy, availability, security, quiet enjoyment, reliability, investment suitability, regulatory compliance, and professional standard of care.

BaySpace does not warrant that Bayo+ or Crypti will be accurate, complete, secure, uninterrupted, error-free, profitable, compliant with your obligations, recognized by third parties, or free from harmful content.

27. LIMITATION OF LIABILITY

To the fullest extent permitted by law, BaySpace, Bay Oracle, and their operators, owners, administrators, moderators, contractors, service providers, affiliates, successors, and assigns will not be liable for indirect, incidental, special, consequential, exemplary, punitive, lost-profit, lost-data, lost-goodwill, lost-opportunity, market-loss, trading-loss, or asset-loss damages arising out of or related to Bayo+, Crypti, this Agreement, member content, member conduct, platform access, standing records, votes, rankings, signals, or third-party services.

To the fullest extent permitted by law, BaySpace's total liability for any claim related to Bayo+, Crypti, or this Agreement will not exceed the greater of the amount you paid BaySpace specifically for Bayo+ or Crypti access during the three months before the event giving rise to the claim or one hundred dollars (\$100).

28. INDEMNIFICATION

You agree to defend, indemnify, and hold harmless BaySpace, Bay Oracle, and their operators, owners, administrators, moderators, contractors, service providers, affiliates, successors, and assigns from and against any claims, damages, losses, liabilities, costs, and expenses, including reasonable attorneys' fees, arising out of or related to:

- your use of Bayo+ or Crypti;
- your Member Content;
- your votes, ticker submissions, sources, receipts, comments, rankings, or signals;
- your violation of this Agreement;
- your violation of law or third-party rights;
- your financial, crypto, tax, legal, or professional decisions;
- your disclosure or misuse of member-only content;
- your interaction with any third-party service, wallet, exchange, broker, chain, protocol, or market participant.

29. GOVERNING LAW

This Agreement is governed by the laws of the State of California, without regard to conflict-of-law principles, unless a mandatory law requires otherwise.

30. DISPUTE RESOLUTION

Before filing any legal claim related to Bayo+, Crypti, exclusive legal standing coverages, member access, standing records, votes, rankings, content, or this Agreement, you agree to contact BaySpace at bayoracle@protonmail.com and attempt in good faith to resolve the dispute informally.

Any dispute will be handled under the dispute resolution terms in the main BaySpace Privacy Notice and User Agreement unless BaySpace adopts a separate written dispute process for Bayo+ or Crypti.

31. CHANGES TO THIS AGREEMENT

BaySpace may update this Agreement from time to time.

BaySpace may provide notice through the platform, account flow, member-only area, update page, email if available, or other reasonable method.

Your continued use of Bayo+ or Crypti after an updated Agreement becomes effective means you accept the updated Agreement.

32. CONTACT

Questions about this Agreement, Bayo+, Crypti, member standing records, or exclusive legal standing coverages may be sent to:

Bay Oracle

bayoracle@protonmail.com

33. ACCEPTANCE

By creating, maintaining, joining, accessing, posting in, voting in, reading, using, or continuing to use Bayo+ or Crypti, you acknowledge that you have read, understood, and agree to this Agreement.

You further acknowledge that:

- Bayo+ and Crypti are member-only platform areas;
- exclusive legal standing coverages are limited platform standing records and contractual member protections;
- Bayo+ and Crypti do not provide legal, financial, investment, tax, accounting, regulatory, brokerage, custody, or professional services;
- crypto, market, ticker, and member signal information may be wrong, incomplete, risky, or harmful if relied on without independent review;
- BaySpace may moderate, restrict, revoke, preserve, or change access and standing records as described in this Agreement.
